

## Our Story

Over 90 years ago, we started as a Swiss trading house in Indonesia. Today, three generations of merchants later, Scheidegger Trading's gateway to international markets is through its office in San Francisco established in 1981. This accumulation of knowledge and experience, supported by a team of highly motivated people, has allowed the company to expand from an Asian focused business to one that trades in many parts of the world. A network of well-established and reputable sales agents and importers successfully distribute and market products from the Scheidegger portfolio.

At Scheidegger Trading, we take pride in building and maintaining strong relationships with customers and suppliers based on mutual trust and a professional business attitude. We look forward to receiving your inquiries and to developing a successful partnership with your company.
