Our Founder

Julie has a MBA from the Wharton School at the University of Pennsylvania and a Masters in International Studies. Fascinated with the interplay of food, finance and diplomacy, a trifecta that gave her deep insights into food innovation, she set up UFisheries in December 2019, specializing in smoked salmon and salmon jerky.

UFisheries supports culinary diplomacy and cultural diversity through our innovative snacks and foods, an initiative that was inspired by her father, a pioneer and a diplomat to Japan and China who devoted his life to international relations with passion.

As she introduces Asian-style food products to the US, she also introduces wild-caught salmon from the pristine waters of Alaska to the world. She currently specializes in salmon products for sale in specialty stores and farmers markets.
